

Femulate HP

FemulateHP™ starts with our groundbreaking CircQlate™ technology, a potent combination of proteins and amino acids that broke new ground in cattle feeding programs across America. Then we added our Femininity™ formula, a unique supplement just for heifers and breeding cows, designed to overcome the feeding programs that make her look like a steer. Developed specifically for female cattle by Dr.

Jack McEowen, Ph.D and Ken Savell, this product will make your heifer look better, feel better, move better, and breed better! Finally we add special hair-promoting ingredients for a superior haircoat. This is the top-shelf product for your champion heifer!
