

Oxy-Gen® animals are unstoppable!

The Martin family's tradition of winning continues with Chama Martin winning the Grand Champion goat at the American Royal in Kansas City AND the Reserve Champion at the NAILE show in Louisville, with sister Sierra taking the Grand Champion!

Wayne Morse takes the Grand Champion lamb in Show A at the Fall Classic, the Reserve Grand Champion Meat Goat in Show A goes to Sydney Hammack, and Rebecca Wison wins the Grand Champion Meat Goat in Show A!

Year after year, Oxy-Gen® animals sweep the biggest and most prestigious livestock shows all across America, and this year is no exception. From lambs and goats to cattle and swine, Oxy-Gen® animals exhibit superior muscling, better conformation, increased vigor, and enhanced bloom, and the judges notice. No other supplement on the market can match Oxy-Gen®'s results or our record in the show ring!

We have improved our flagship products Xcalibur™ and Grand Goat™ with our exclusive CircQlate™ technology, plus our Depot™ formula that naturally tightens the hides of your lambs and goats. It is this constant commitment to improve our products that drives our success, and our results speak for themselves. Oxy-Gen® fed more Champions at every major show last year than any other company.

You really should find out what the Champions already know. Call us today TOLL-FREE and ask how Oxy-Gen® products can help you build better show animals.
